DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/15/2008 has been entered.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the device, the funnel inlet, the ring-shaped part, the chamber, the funnel outlet situated outside of the container, and the side walls of the container must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for

consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Election/Restrictions

3. Applicant's election with traverse of election in the reply filed on 9/15/2008 is acknowledged. The traversal is on the ground(s) that the examiner reason for the election is that the device shown in Fig. 3 is not a funnel, but the common usage of the term "funnel" is a metal chimney on a ship or an engine ,through which the smoke comes out. This is not found persuasive because the device in question is a trap, not a ship or an engine. The term "funnel" has a specific meaning in the art, which is to direct insects to an opening, through which they can not pass back or have difficulty passing in the opposite direction, such as shown by the bottom part of the catching part 37 in Fig. 3 or by reducer 42 in Fig. 4.

The requirement is still deemed proper and is therefore made FINAL.

Claim Objections

4. Claim 20 is objected to because of the following informalities: claim 20 depends from canceled claim 3. Appropriate correction is required. It appears that claim 20 should depend from claim 1.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-2, 20, 41-43 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 1 and 41, "...and a funnel outlet situated outside of the container for storing the caught insects..." is confusing because it connects the funnel outlet with storing the caught insects. The intended use should refer to the purpose of the funnel outlet.
7. Claim 1 recites the limitation "the sloping mesh" in line 10. There is insufficient antecedent basis for this limitation in the claim.
8. Claim 41 recites the limitation "the sloping mesh" in lines 10-11. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

9. Claims 1-2, 20, 41-43 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
